Good communication skills

CNC Programmer / Technician Professional

Summary

Experienced CNC Programmer / Technician with a strong background in CNC lathes and machining centers. Skilled in ISO/G-code programming, tooling setup, quality control, and troubleshooting. Proven ability to work independently, optimize machining processes, and deliver high-precision components.

Work Experience

Shift Leader – CNC Turning Department Metalcastello S.p.A. (Jul 2022 – Present)

- Supervision of hardened, nitrided, and heat-treated components
- CNC lathe setup and programming
- ISO programming & technical drawing interpretation
- Alpa Spider measuring system

CNC Lathe Operator & Tooling Technician 3T S.r.l. (Feb 2022 – Jul 2022)

- Prototypes for automatic machines
- Full cycle: drawing, tooling, programming on Fanuc
- Tool selection & production methods

CNC Machine Operator (Turning & Machining Centers)

Metalcastello S.p.A. (Nov 2018 – Feb 2022)

- CNC operation & setup
- ISO/G-code programming
- Dimensional inspections & corrections
- Troubleshooting & tooling replacement

CNC Lathe Operator Borelli Transmission Components srl (Feb 2018 - Nov 2018)

- Operation of CNC lathes & machining centers
- Tool wear recognition & replacement
- Quality control with precision tools

MicroWiFi s.r.l (Jul 2016-Nov 2016)

- Software and hardware repair for personal computers, smartphones, and similar devices
- Installation and configuration of antennas and routers for internet browsing

Education

Industrial Technical Diploma in Computer Science
I.T.I.S. Evangelista Torricelli (2016)

Technical Skills

- ISO / G-code programming (Fanuc) • CNC lathe setup & operation • Machining centers troubleshooting • Precision measuring instruments
- Technical drawing interpretation • Quality control & process optimization
